## PULVERIZED SHEEP MANURE

We believe we have the best brand of Pulverized Sheep Manure obtainable. It is strictly a pure animal product with the addition of no commercial fertilizer to bring it up to high chemical analysis. Our sheep manure is composed of cleanings from wool and contains a minimum amount of dirt and foreign matter which is so common in the ordinary stock yards products. It also has an oily quality not found in the ordinary sheep manure. This makes it much more pleasant to use, making it less dry and powdery.

Sheep Manure is used by all florists and growers both for indoor and outdoor use. We use it in our own greenhouses in large quantities for mixing with potting soil. For outdoor use it is very convenient, comparatively odorless and produces quicker and better results than stable manure without the unsightly appearance of the latter. Per 100 lbs., \$2.50; 500 lbs., \$12.00; 1,000 lbs., \$22.00; 1 ton, \$42.00.

Evergreen makes no sediment; it does not clog sprayer or gum sprayer parts; it does not corrode metal or rubber. Evergreen does not deteriorate; it can be kept in the original package for years without loss of effectiveness. Evergreen is economical. Only 8% is water, the other 92% is active as an insecticide. A little goes a long way. Evergreen mixes readily with water or soapsuds. Does not stain clothes or burn foliage; it has a pleasant odor and causes no ill effect to the person spraying.
